

Recreation and Conservation Funding Board

FACT SHEET

Recreation and Conservation Funding Board Members

- Ted Willhite, Chair, Twisp
- Elizabeth Bloomfield, Yakima
- Mike Deller, Mukilteo
- Pete Mayer, Renton
- Department of Fish and Wildlife
- Department of Natural Resources
- State Parks and Recreation Commission

Voting to Tax Ourselves

The board began in 1964 when citizens voted for Initiative 215, which created the board and gave it authority to spend gas taxes from boaters to develop boating facilities.

2015-2017 Budget

Keeping Washington a Great Place to Live, Work, and Play

Washington is blessed with an abundance of rich, natural lands that provide jobs, attract tourists, and give residents places to recreate and rejuvenate.

Each year, Washingtonians and visitors spend \$21.6 billion on outdoor recreation, supporting 199,000 jobs in Washington and many different businesses.¹

Outdoor recreation also generates \$2 billion in local and state taxes.

In addition, conserving parks and other natural areas provides vital habitat for wildlife, increases property values, and ensures that Washington remains a great state to live.

One-Stop Shopping for State Investments

With so much at stake, the Recreation and Conservation Funding Board ensures that only the best projects receive funding. The board administers nearly a dozen state and federal grant programs that fund a variety of organizations to build parks, trails, ball fields, firearm and archery ranges, and boating facilities; conserve and restore wildlife habitat; and preserve farmland. The board sets the criteria and ensures projects meet state, local, and national priorities for outdoor recreation and conservation. Consider:

- The board's grants are the largest source of state funding for local parks and trails.
- The board is a significant financial contributor to conserving some of the state's most pristine natural areas for plants and animals at risk of extinction.
- The board offers the only state grants for protecting important farmland from being converted by development.

Involving Citizens

All of the board's grant processes are open and competitive. Generally, grant applications are accepted in even-numbered years. The grant proposals first are reviewed by panels of volunteers, experts, and staff. The panels weigh the

Clark County used a \$122,000 grant to expand Lacamas Lake Park.

INVESTING IN WASHINGTON'S GREAT OUTDOORS

merits of the proposals against established grant program criteria, strategic plans, and in some cases, national priorities. They compile ranked lists of projects that the board considers for funding. In some cases, the board makes recommendations for funding to the Governor, Legislature, or federal government.

Funding

Funding for the grants comes from federal funds, state gas taxes, fees, and the state's sale of general obligation bonds.

Grants Awarded

Since 1964, the board has awarded more than \$1.3 billion for more than 5,850 projects in every county of the state.

Grant recipients have contributed more than \$934 million, bringing the total investment to more than \$2.2 billion in Washington's great outdoors.

This investment is protected long-term through contracts managed by the Recreation and Conservation Office.

Other Responsibilities

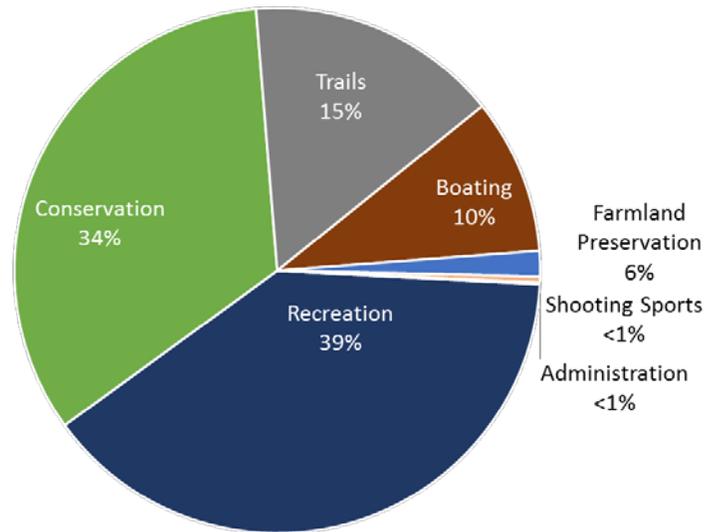

The Recreation and Conservation Funding Board is more than a grant-making agency. In addition, the board has a number of other responsibilities.

For example, the board has created statewide plans for recreation and boating to enable the state to qualify for federal grants.

The board also hosts a statewide Web site for boaters (www.boat.wa.gov)

The board also frequently completes reports and legislative studies on a range of topics including public ownership of lands, recreation trends, and levels of service for park departments.

Grant Awards
Percent of \$1.3 Billion
1964-2015

Asotin County Little League used a \$147,000 Youth Athletic Facilities grant to development baseball fields, parking, and a building housing restrooms, concessions, and a small office space.
