Jul-12

Mossyrock

Grant Awarded: \$335,575

Developing Klickitat Prairie Park

The Town of Mossyrock will use this grant to build a play and fitness area, parking, walking trails, community gardens, and picnic areas at Klickitat Prairie Park. The park connects to the community center, city hall and police department and provides access to Klickitat Creek, which runs through the property. Mossyrock will contribute \$335,575 in cash and a local grant. (11-1191)

Bothell

Grant Awarded: \$109,000

Expanding North Creek Forest

The City of Bothell will use this grant to buy nearly 6 acres of a 64-acre forest known as North Creek Forest along Interstate 405. The land contains a mature forest that is home to at least two priority bird species, the pileated woodpecker and band-tailed pigeon, and sits above North Creek, a stream used by Chinook salmon, which are listed under the federal Endangered Species Act. The property is near the University of Washington Bothell campus and its 54-acre wetland restoration project. Combined the two areas provide more than 100 acres of diverse habitat for 9,000 students. Bothell will contribute \$109,000 in conservation futures¹. (11-1359)

Richland

Grant Awarded: \$387,040

Improving Claybell Park

The Richland Parks and Recreation Department will use two grants to develop 10 acres of Claybell Park. Crews will install two, full-sized, multi-sports fields, improve the existing softball field, build a restroom, create a half-mile paved trail, build a new entry road, and move the parking lot so it is located centrally and double its size. In addition, the city will remove two tennis courts and build four new tennis courts. Richland will contribute \$706,000 in cash and cash donations. (11-1429)

Port Angeles

Grant Awarded: \$39,627

Building a New Shane Park Playground

The City of Port Angeles, the Shane Park Committee, and the local Kiwanis Club are teaming together to build a new playground in Shane Park. City staff will assemble the structure and improve the sidewalks so they are accessible to people with disabilities. Volunteers will clear overgrown landscaping around the park to improve visibility and will prepare the playground site. Port Angeles will contribute \$100,546 in donations of cash, equipment, and labor. (11-1195)

¹ Conservation futures are a portion of property taxes used by local governments to buy land or development rights to protect natural areas, forests, wetlands, and farms.
